

**General Education Diploma (GED)**  
**Adult Education**  
Ramona Unified School District

Learning is a lifelong process. Ramona Unified is offering two pathways to earn a high school diploma equivalency. We offer both GED prep and testing, and adult education classes that lead to an adult education diploma. On Tuesday evenings our campus at Montecito High School is quite busy. We make it possible for people who had to make the difficult decision to leave high school, for whatever reason in their lives, to earn their high school equivalency.

We are a certified GED site meaning we are licensed to test students wanting to earn their GED. Students may take practice tests, receive encouragement, and direct instruction in areas where they feel they need that additional bit of instruction to help them pass the actual GED test. We are licensed to test in both English and Spanish and have tested adults not only from Ramona, but from all over the San Diego County.

Our newest program during our adult evening is our Adult Education High School Diploma Program. This is the perfect program for that student who had to leave high school and only had a few classes left to complete. After a complete credit evaluation from the student's official high school transcript, we offer rigorous online classes that will complete their high school requirements and allow them to earn an Adult Education Diploma. Credentialed teachers are available to assist with providing supplemental instruction regarding the learning material. Sometimes, all that is needed is an encouraging word, and those are handed out in abundance.

We are endeavoring to make a difference in the lives of the members of our community; both English speaking and our Spanish speaking community. Many places of employment require a high school diploma or the equivalency. We are assisting our adult community to access the learning and testing required for the necessary equivalency. We are allowing them to feel the pride of a job well done and the knowledge that they can achieve their dreams.
